sheldon lathe parts | eBay

Sheldon 10-inch lathe with single-tumbler screw cutting gearbox as manufactured during the 1940's. Additional Prep Fees May Apply

Sheldon 11" & 12" Lathes

SHELTON 10-inch L and XL later-type lathes mounted on an underdrive stand constructed from either braced sheet-steel or cast iron that held either an ordinary V-belt transmission or a rather complex variable-speed drive. The lathe was current from the early 1950s to the 1970s and sold under various Model designations. Screwcutting was by a gearbox with two sliding levers instead of the single lever of the previous model.

Sheldon Lathe OEM Repair Parts by Bourn & Koch

This Sheldon lathe from about 1940 has an unusual drive system in the pedestal called U-Type Underdrive. Sheldon also made an E-Type pedestal drive that utilized a four-step pulley that had to be ...

Sheldon 10 Inch Lathe - VintageMachinery.org

Early versions of the 10" Sheldon lathe (as developed from the now rare 8-inch and 9-inch) were

manufactured during the 1930 and very early 1940s and made with bed-lengths of 38 and 44 inches to give between-centres capacities of 20 and 26 inches respectively.
