Difference Between 4PL vs 3PL Logistics  
- Penske Logistics

fourth party logistics (4PL): Arrangement  
in which a firm contracts out  
(outsources) its logistical operations to  
two or more specialist firms (the third  
party logistics) and hires another  
specialist firm (the fourth party) to  
coordinate the activities of the third  
parties.

Lead logistics providers (LLPs), also referred to as fourth-party logistics (4PL) providers, have a broad role within the supply chain. They assume many of the same roles as third-party logistics (3PL) providers, but have much broader responsibility and accountability in helping the customer reach its strategic goals.
