www.hasd12.org
Nebulas rarely start to clump together on their own- often they require an outside force to nudge them into coalescing. Such a force could be provided by a nearby supernova. When the matter in a nebula begins to collapse- it begins to spin rapidly and flattens into a disk shape. ... Stellar Evolution Diagram Answer Key: ...

Stellar Evolution Diagram Answer Key: Evidence of Evolution Background
When Charles Darwin first proposed the idea that all new species descend from an ancestor, he performed an exhaustive amount of research to provide as much evidence as possible. Today, the major pieces of evidence for this theory can be broken down into the fossil record, embryology, comparative anatomy, and molecular biology.

Evolution Unit Review WS 2011-2012 KEY[1]
Evolution is the supposed process by which the first cell evolved into the diversity of life we see today. Natural selection and mutations are considered its driving force. However, evolution has never been observed and natural selection and mutations cannot add the information necessary to change one kind into another.
