API Standard 520 Part II - Sizing, Selection ...

This article lists the standard effective orifice areas for the orifice designations found in API RP 526 5th edition. These orifice designations set the minimum effective orifice area which a relief valve must have to meet the API 526 requirements and must be used with the sizing equations in API RP 520 Part I.

API RP 520 P1 : Sizing, Selection, and Installation of ...

API Recommended Practice 520, Sizing, Selection, and Installation of Pressure-Relieving Devices in Refineries, is the result of several years' work by engineers in the petroleum industry. The information in this recommended practice is intended to supplement the information contained in Section VIII, "Pressure Vessels," of the ASME
