to the Audi A6 C6 (2004-2011). The Audi A6 is a relatively reliable automobile; however, just like any vehicle, there are always opportunities for problems. Cars are made up of moving parts that create friction, which causes wear and some of this wear is in places that are not seen without tearing things apart.

The fourth generation C7 series Audi A6 was launched in early 2011. Heavily influenced by the Audi A7, this Audi A6 model features a more conservative design than past models, but has the most aggressive front fascia and LED headlights and taillights available. This new A6 model also has an increased wheelbase of more than three inches and more than three inches in its overall width.

~~Audi.com — the international Audi website | audi.com~~

The Audi A6 will likely be considered alongside other big German premium machines, such as the Mercedes-Benz E-Class and the BMW 5 Series, as well as other rivals like the Jaguar XF and Volvo S90. A look at the purchase prices suggests very little between them, with the Jaguar being slightly cheaper and the Audi sitting towards the top of a very small range.
