Physics Chapter 24 Study guide Flashcards | Quizlet  
-The magnetic field of Earth is not due to a giant magnet in its interior—it is due to electric currents.-Most Earth scientists think that moving charges looping around within the molten part of Earth create the magnetic field.-Earth's magnetic field reverses direction: 20 reversals in last 5 million years.

---

Magnetic fields of electric currents Class 10 Science Chapter 13 Explanation in Hindi  
→ Magnet is any substance that attracts iron or iron-like substances. → An electric current-carrying wire behaves like a magnet. → Electromagnets and electric motors involve the magnetic effect of electric current, and electric generators involve the electric effect of moving magnets.

---

Solved: CHAPTER 24 Magnetic Fields And Forces 9 ... - Chegg  
Continuing the A Level Physics revision series, this video looks at Electromagnetism covering the magnetic field, the force when a current moves along a wire...
