The boat is a variant of an older hull that they spen their own way. The newer model we have not seen though they apparently have a newer design. They tried in the 2007 range to step out into the bass market more and pushed an 18' design for cost reasons going into the recession. Volume is very low now on Charger and they are a solvent company.

The 2006, 496VF/TF is a 20.5 foot outboard boat. The weight of the boat is 1650 lbs. which does not include passengers, aftermarket boating accessories, or fuel. While this bass boat does have a hull made of fiberglass, it is beneficial to keep the boat clean and dry by covering it properly while not in use.

The fit and finish is great. I think with the right setup, Charger boats are as fast as any boat in their class (68 on gps with no jackplate). This boat is almost 14 years old, (I fish 250 days a year), and people still can't believe that it's that old. They can't believe it's a 150 smokin their 200's.
