About the Clinical Pharmacology and Prescribing programme. Prescribe provides e-learning materials to help medical students (and students of other healthcare professions) to develop a firm grounding in the principles of clinical pharmacology, which underpin safe and effective prescribing in the NHS. It is being developed by the British Pharmacological Society, a community of over 3,500 scientists that leads the way in the research and application of pharmacology around the world, in ...

Sally K. Miller, PhD, AGACNP-BC, AGPCNP-BC, FNP-BC, FAANP.

This course addresses the growing need for a thorough course in the principles of pharmacotherapeutics taught by highly skilled NP educators. Prescribing has become a major part of the role of advanced practice nurses. At the same time, prescribing has become more complex and polypharmacy is more prevalent with the possibility of adverse interactions.

Each drug has 2 pages - Clinical Pharmacology & Clinical Prescribing. As a med student I use the clinical pharmacology sections all the time for quick reference of drug indications, mechanisms of action, adverse effects, interactions etc. I imagine I will use the clinical prescribing sections as I move into clinical phases and foundation years.
