answer. 7. The KE and PE of a block freely sliding down a ramp are shown in only one place in the sketch. Fill in the missing values. 8. A big metal bead slides due to gravity along an upright friction-free wire. It starts from rest at the top of the wire as shown in the sketch. How fast is it traveling as it passes Point B? Point D? Point E?

I have modified and provided answers to some of the more illuminating review questions and exercises from Hewitt's Conceptual Physics, 9th edition. I have also included 'Things to Know by Heart' at the end of the three major divisions. You should commit these rules to memory as we cover them in class.

† Conceptual Physics Alive! DVDs Gravity | CONCEPT CHECK..... Although the formula for Newton's law of universal gravitation is not shown until Section 13.4, I have found considerable success by beginning with the law right away. The formula focuses on what might be seen as diverse phenomena and all the examples relate to the formula.
