Conducting Pilot Studies Excerpts adapted from: Simon, M. K. (2011). Dissertation and scholarly research: Recipes for success (2011 ed.). Seattle, WA: Dissertation Success, LLC. A pilot study can be used as a “small scale version or trial run in preparation for a major study” (Polit, Beck, & Hungler, 2001, p. 467). Baker (1994) noted that “ a pilot study is often used to pre-test or try ...

Conducting Pilot Studies Dissertation Recipes

Measurement matters. At some point in the dissertation development process, everyone needs to confront the issue of measurement. We've found that many if not most students have a fuzzy sense at best of how to define and measure important characteristics of the concepts or phenomena they propose to study.

full-scale study or a trial run done in preparation of the complete study.

CHAPTER 5 PILOT STUDY 1. INTRODUCTION - Unisa

I realize that pilot studies usually precede the full dissertation study, but the full study will take years to complete, and the write-up has to be completed in the next two years.

Can a dissertation be written on a pilot study?

Conducting a Pilot Study. A pilot study is typically conducted to test certain factors related to the main dissertation study. The sample for the pilot study is similar to the sample for the main dissertation study. In a pilot study, data is collected and so IRB approval is necessary. Reasons to conduct a pilot study include:
