In episode 86 of the Counselling Tutor Podcast, we look at the difficult issue of touch in counselling. In 'Practice Matters', we describe strategies for working with suicidal clients. We end the episode by talking about the anxiety that can naturally hit us when working in a group setting - and how we can help assuage this.

086 - Working with Suicidal Clients in Counselling ...

Brighton Therapy Partnership hosted an event with Dr Andrew Reeves entitled Tight Ropes and Safety Nets: Counselling Suicidal Clients. During this presentation, Dr Andrew Reeves used clinical vignettes, videos, group discussion and his own research to allow us to consider what it means for our clients to feel suicidal, how we might best support them whilst considering our organisational contexts and how to care for ourselves as practitioners working with high levels of distress.

Brighton Therapy Partnership | Counselling Suicidal Clients

If you're worried someone you care about is having suicidal thoughts, the first thing you should do is ask them to talk about how they feel and listen to everything they say. Remember - you don't have to give them advice or say you know how they feel. Simply being there to listen can be a huge help. Instead, try to show empathy.

Once an individual is no longer in crisis, therapy to treat the underlying causes of suicidal ideation or behavior is typically recommended. The psychotherapy model considers hopelessness to be the...

### Suicide, Therapy for Suicide

A Career in Counseling While the work of getting suicidal individuals to seek out counseling or stay in treatment might fall within the realm of public awareness and educational campaigns, the work of helping individuals in treatment overcome suicidal thoughts resides with mental health counselors.

### Counseling Options for Suicidal Individuals

For example, in the state of Oregon clinicians may be mandated to report suicidal behaviors in order to maintain the client's safety and provide additional care (see ORS 419B.005, 40.262 R 507). Ethically, the most relevant issues involve confidentiality and avoidance of harm.

### Working with Suicidal Clients: 6 Things You Should Know

Counselling Suicidal Clients (starts at 1.45 mins) Rory opens this first segment, which focuses on counselling suicidal clients, by talking about the importance of language relating to suicide. The term 'committing' suicide dates back to a time when suicide was against the law; as this is no longer so, it should not now be used.

### Counselling Suicidal Clients • [Podcast for Counsellors]

Suicide ideation is normal and natural and counseling is a good place for clients to share those thoughts. I can be of better help to clients if they tell me their emotional pain, distress, and suicidal thoughts. I want my clients to share their suicidal thoughts. If my clients share their suicidal thoughts and plans, I can handle it!

### Talking with Clients about Suicidal Thoughts and Feelings ...

Suicidal and other self-destructive behaviors serve as coping strategies for many clients desperate for emotional relief. By framing behaviors this way, we can create a therapeutic container absent of judgment while also targeting feelings of shame that may contribute to the isolation many suicidal clients feel. ”

### Confronting the threat of suicide - Counseling Today

Suicidal thoughts or acts cannot simply be thought of as a medical illness. Suicide challenges counsellors and health workers to engage empathically with complex psychosocial issues and to be open to understanding some of the deepest meanings people hold about their life (and potential death).

### suicide postvention counselling - SQUARE

Suicide is a leading cause of death in the United States, and it is likely that every counselor will work with clients who have active suicidal ideation. Thus, it is critical that counselors understand risk factors for attempting or completing suicide as well as how to assess for suicidal ideation.

### Assessing Suicidal Ideation | Counseling.Education

Safety when working with self-harming clients. With survivor clients, some of the hardest challenges of working in a model of empowerment emerge around issues of self-harm. 'Empowering clients' is especially hard when they are in hospital, in great distress, asking us to protect them, or suicidal (Saakvitne et al., 2000).
