Fragile X syndrome, the most common inherited cause of intellectual impairment and the most common single gene associated with autism, generally occurs for fragile X mental retardation 1 (FMR1) alleles that exceed 200 CGG repeats (full-mutation range). Currently, there are no unbiased estimates of the number of full-mutation FMR1 alleles in the general population; a major obstacle is the lack ...

I was assigned Dr Yao as my doctor had moved to another clinic. Dr Yao had been my physician for three years. As many people in their reviews have stated she doesn't listen, doesn't communicate well and ultimately didn't address my health issues. She seems to just want to hurry up and get you out and make it as easy as possible for herself.
