To the untrained eye, ultralight aircraft, with their small body and minimal construction can seem like a dangerous option for pilots. There are plenty of scary stories about how these seemingly flimsy planes are deathtraps that all respectable pilots should avoid. However, many experienced fliers insist that these machines don't deserve their bad reputation as a...

How to Build an Ultralight Aircraft - Hobby Zeal

Build Ultralight Airplane One of the most exciting thing in the ultralight aviation is the fact you can build your airplane yourself. I know it sounds scary if you are a beginner. It scared me as well. But building your ultralight aircraft yourself does not require engineer knowledge (although it helps!), neither a big professional workshop.

Do It Yourself Ultralight Aircraft Guide

Is there a do-it-yourself ultralight aircraft guide somewhere on the internet? Answered I have always wanted to construct an ultralight aircraft with this old rowboat I hooked up some shocks and wheels to, I even have the hang glider, I need a way to connect it while giving me the ability to steer properly.
