and education systems to design and implement new visions for the future of learning. No single vision for the future of learning fits all. The key is to lead vision design with clear goals for the future of learning. This paper addresses vision design – the starting place for holistic transformation of education in a digital era. The paper

*Holistic education - Wikipedia*

Natural Vision Improvement is a holistic (sometimes spelled 'wholistic') approach to vision care. Vision occurs mainly in the brain. Our eyes receive information in the form of light, and the brain processes the information to make meaning of it, creating our "visual world". The process of improving our eyesight not only enables us to ...
