This is one of the chief accomplishments of *In the Wake of 9/11: The Psychology of Terror*. Its authors have succeeded in recasting the psychology of terror against a general theory of human nature.

In the wake of terror - Advisory Board

Abstract. This article asks what happened to racially motivated hate crimes in the wake of the 7/7 terror attack that hit London in July 2005 and the 9/11 terror attack that hit the United States in September 2001. There is anecdotal and descriptive evidence of an increase in bias-motivated crimes since the 9/11 terrorist attacks in the United States, but little quantitative research on the issue.
