Book review: “Inspired: How To Create Tech Products ...

“INSPIRED is the authority on how to build a product that customers actually want. It’s not about hiring product managers – it’s about establishing a culture that puts the user first, and builds the organization and teams around that customer to ensure that you are building the best product possible.

[PDF] Full INSPIRED How to Create Tech Products Customers ...

How do we create successful tech products? I’ll summarize the main points of the book as a series of “Greats” from the most important to the least important. But truly, they are all important.

I'm happy to announce the results of my big project over the past year, which was to produce and release the second edition of INSPIRED: How To Create Tech Products Customers Love. The book could just as easily been characterized as "Volume 2" because it is not so much an update, but rather completely new.
