### **Spying techniques: tradecraft explained**

Tradecraft, within the intelligence community, refers to the techniques, methods and technologies used in modern espionage (spying) and generally, as part of the activity of Intelligence assessment. This includes general topics or techniques ( dead drops , for example), or the specific techniques of a nation or organization (the particular form of encryption (encoding) used by the National Security Agency , for example).

### **Tradecraft - Wikipedia**

The Clandestine HUMINT page deals with the functions of that discipline, including espionage and active counterintelligence. This page deals with Clandestine HUMINT operational techniques, also called "tradecraft". It applies to clandestine operations for espionage, and a clandestine phase before direct action or unconventional warfare. Clandestine HUMINT sources may also act as local guides for special reconnaissance. Many of the techniques here are important in counterintelligence. Defensive c
