Introduction Transportation systems are subject to constraints and face questions of resource allocation. The topics of supply and demand, as well as equilibrium and disequilibrium, arise and give shape to the use and capability of the system. Demand Curve How much would people pay for a final grade of an A in a transportation engineering class?

Lecture 01. Introduction to Transportation Engineering

Transportation students have an obvious motivation in the course above and beyond the fact that it is required for graduation. Transportation Engineering is a pre-requisite to further study of Highway Design, Traffic Engineering, Transportation Policy and Planning, and Transportation Materials.
