Also note that that proposed solutions for the course Econometrics are based on the presentation in a different book (Johnston and DiNardo: Econometric Methods) and do not fully correspond to the presentation in Verbeek, but the covered material is more or less the same. 15-03-2007

~~Econometric Methods, Fourth Edition~~

A complete reading of this book would give you a very strong knowledge of Modern Econometrics: you can learn what an applied macro or microeconomist would need and use. This is really a great "jump" from the last edition of Econometric Methods by J. Johnston (1984)(the one I use when I was an undergraduated student).
