KUHN's mower-conditioners help to reduce drying time by incorporating flexible flail fingers and rollers. The KUHN range of mower-conditioners also incorporates the LIFT-CONTROL® suspension system which allows the mowing unit to adapt perfectly to different types of terrain - this in turn helps to preserve the crop's nutritional quality.

Ron Harleman of Appleton City, Mo. knows about the manufacturers of agriculture equipment inside and out, as he owns two manufacturing companies himself. That's why this entrepreneur/farmer says he purchased one of KUHN's new mower conditioners, the FC 3560 TCD, when he was in the market for new hay harvesting equipment to use on his cow-calf operation.

Especially in years like 2013 in which there's been "a lot of rain" and "green hay," Layes says this new KUHN mower conditioner has "cured the hay quicker." Layes knows that fast, consistent drydown is crucial to top-quality forage for cattle, and the FC 3160 TLD fits the bill with its wide rotor, finger-style conditioning.

FC mower conditioners 1061 TL series with side drawbar come in working widths from 2.67 to 3.50 m. These machines are economical, adapted to medium-sized plots and provide high output. Headland turns are easy thanks to the GYRODINE headstock, which provides the simple handling necessary to produce high quality forage.
