Landmarks of Tomorrow: A Report on the New. The first part of the book treats the philosophical shift from a Cartesian universe of mechanical cause to a new universe of pattern, purpose, and process. Drucker discusses the power to organize men of knowledge and high skill for joint effort and performance as a key component of this change.

The Landmarks of Tomorrow by Drucker Peter F - AbeBooks
The Landmarks of Tomorrow is a book by Peter Drucker which appeared in 1959. It describes a change in society which took place between 1937 and 1957, whereby the precepts of the Cartesian world-view no longer hold sway. Cause is no longer the central concept in understanding the world, but rather pattern, purpose and process.
