Its important that the optics are clean and well aligned and the Wild M8 is a superb scope the optics are world class and in my view match the latest Leica optics (with the exception of a little brightness and slightly less field of view) with the added advantage that they will last a lifetime with reasonable use and they are easy to maintain.

the Leica Wild M10 and modern cameras (DSLR, system or USB) The Wild M10 is the last stereo microscope (Greenough principle) in the M series (WILD M3, WILD M7, WILD M8, etc.) from Leitz. Although a few years have passed since its market introduction (beginning of the 1990s), it is still very easy to connect a digital ...

Thanks for your
manual and brochure. I
would recommend the
Leica\Wild Heerbrugg
phototubes: 404891
and 180570. I own
both of these. The
404891 has better light
transmittance in the
photo mode. The
180570 loses 50% light
transmittance in photo
mode but the loss isn't

Get Free Leica Wild M8 Manual

very noticeable. Both of these can be pricey.

The Wild M8 is perhaps
the best of the Wild
Stereoscopes just
beneath the Wild M10
but a better cost to
performance ratio. It is
a beautiful scope. I
have been watching E-
bay for a nice example

Get Free Leica Wild M8 Manual

reasonably priced for a while now.
