Airbus A319/320/321 Notes

The Airbus A320 CBT (Computer Based Training) Aircraft Systems Course explores all the major aircraft systems, including all the components, operations, controls, and indications involved with each system. Embedded actions and features add to both the interactivity and the educational value of this A320 type rating course, which walks you step-by-step through all the systems and associated operations, providing far more visual explanation than a typical aircraft manual.
