Dr. Hulda Clark's specifications exclude all devices based on the  
work of Dr. Bob Beck, including his "zapper"/colloidal silver  
maker/plant growth stimulator, Brain Tuner, and magnetic  
pulser. Dr. Hulda Clark's definition of "zapper" also excludes  
most "Rife type" devices that I have tested, which generally  
produce AC output, with negative pulses that can make parasites  
GROW.

This is a very strong field. At 1 Hz (1 pulse per second) the  
device generates pulses of 2.400 Gauss (0.24 Tesla), therefore 5  
times more often. Thus the biggest magnetic field is reached at  
a slow frequency, but the product of strength of pulse multiplied

MAGNETIC PULSER. In addition, Dr Beck also designed a magnetic pulser to treat infected lymph glands and other sites of infection, tumours and other parts of the body with poor blood supply. A strong but very short magnetic pulse (20 K Gauss or higher) induces a tiny current in the cells and body fluids up to 10 or 20 cm into the body.

On the Microelectricitygermkiller forum I posted a question about lung treatment with the Magnetic Pulser. "Wouldn't a Magnetic Pulser be able to treat lung conditions? It seems easier and more thorough. The Pulse would completely penetrate the lung tissue." The response was: "You'd think so, and reading the claims of various makers, and Bob Beck, etc, but not true..not what's ...

Then several manufacturers started making their own magnetic pulsers and also used this same formula to get the Gauss output. Then in 1998, I wanted to be 100% sure about the Gauss output of my magnetic pulser. I ended up purchasing a high-end Teslometer that would accurately and correctly measure the TRUE output of any magnetic pulser.
