WebAssign - Mathematical Interest Theory 2nd edition  
In general, "Theory of Interest" refers to the time value of money and analysis of non- contingent cash flows, such as annuities, investments, bonds,  
and loans - basic financial mathematics. In contrast, contingent cash flows such as life insurance, life annuities, and pensions (life contingencies) are  
covered in MATH 4260-4270.

Mathematical Interest Theory (Mathematical Association of ...  
Mathematical Interest Theory provides an introduction to interest theory, which deals with various loan and savings models, bonds and stocks, and  
interpretations of yield rates. The material is presented at a level sufficient to meet the requirements of Exam FM (Financial Mathematics),  
administered by the Society of Actuaries (SOA).
