The Hurricane Motion Gizmo™ has three simulated weather stations. Turn on Show weather station data. Make sure Wind, Cloud cover, and Pressure are all checked. The tails on each station symbol point in the direction the wind is coming from. The flags on the tail indicate wind speed, measured in knots.

Student Exploration: Hurricane Motion (ANSWER KEY)

Use estimation techniques to measure the distance an animal runs or walks. Understand the meaning of speed. For example, interpret a speed of 5 m/s to mean that an animal moves 5 meters each second. Divide distance by time to calculate speed. Measure and compare the running speeds of several African
