Mischa Schwartz. He was the founding director (in 1985) of the NSF-sponsored Center for Telecommunications Research (CTR). He is a Life Fellow of the IEEE, a member of the US National Academy of Engineering, and a Fellow of the AAAS. He is also a past president of the IEEE Communications Society, and a former Director of the IEEE.

~~Mischa Schwartz—amazon.com~~

This book addresses an area where few organized references currently exist. It is the first textbook to treat both voice and data networks. Written by one of the most respected members of the telecommunication community, it covers the dramatic changes of the past two decades in the field of telecommunications and the rapidly evolving network technologies of the future.
