Motorola MTR2000 | VHF (150-174MHz) Repeater w/Preselector ...

I now have three VHF units in Amateur Radio service, and two UHF units in service for my employer. I don't think there's a better repeater available for the money, but it ain't cheap! Just be aware that the 100 watt VHF power amplifier is available in two splits, 132-154 and 150-174 MHz, and the high-split PA will NOT tune into the 2m band.

radio vhf repeater | eBay

I have read a number of "horror stories" about clueless amateurs who bought used commercial MTR2000 repeaters with 100 watt PAs, and then discovered that they can't program them below 150 MHz. Caveat Emptor! The VHF PA can be modified, however, to work in the amateur band. See the article further down on the MTR2000 Index Page.
