Mr Imaging System Hitachi  
Hitachi's innovations in diagnostic imaging drive technology that enables you to deliver diagnostic confidence, improve workflow efficiency and provide a better patient experience. MR As pioneers in MR technology, we continue to live up to our reputation and lead the way by delivering high-performance, patient-centric imaging systems, as exemplified by our unique oval-bore and open platforms

**AIRIS Light | Healthcare - Hitachi**  
Oasis 1.2T MRI system sets a high standard for patient-centric care. A unique achievement in high-performance imaging, the Oasis truly open architecture features advanced magnet design, Zenith RF Technology and robust clinical capabilities to achieve high throughput diagnostic performance. Hitachi Oasis 1.2T MRI Features and Specifications: Magnet

**MRI Systems Models, Products and Specs | MedWrench**  
Recent Advances in MRI Technology. The Signa Pioneer also features technology called Total Digital Imaging (TDI) enabling improved image quality and increasing SNR by up to 25 percent. TDI is composed of Direct Digital Interface (DDI), Digital Surround Technology (DST) and Digital Micro Switching (DMS).

**MRI Anatomy and Positioning Series**  
A world leader in magnetic resonance systems. Hitachi is recognised as the world's largest open MRI manufacturer with more than 7,000 installed systems and the widest range of open MRI units - from 0.3 up to 1.5 Tesla.

**Healthcare - Hitachi**  
Hitachi MRI Parts & Accessories for Sale The technology experts at Hitachi Medical are pioneers in MRI technology, offering comprehensive diagnostic imaging systems that provide incredible performance and reliability. With a strong reputation for powerful MRI technology, Hitachi systems provide a broad range of patient-centric services.

**Supplement: The Benefits of High-Field Open MRI | Imaging ...**  
Magnetic Resonance Imaging (MRI) MRI Systems; MRI Systems Add MRI Systems to My Bench 86 Results. Siemens Healthineers - MAGNETOM Altea, MRI Systems. Confidence to deliver. ... Hitachi's Echelon 1.5T provides outstanding imaging performance today and is the basis for high performance far into the future. Add to My Bench.

**Legacy Open MRI | Hitachi Healthcare**  
A new 24-page publication from Hitachi Healthcare details the benefits of High-Field Open MRI and is now available for audiences interested in learning more about the technology and how it can help meet patient needs and produce clinical results.. Perspectives provides extensive information on the Hitachi Oasis 1.2T system, which provides cost-effective and high-quality imaging.

**Hitachi Medical MRI Parts and Accessories For ... - CapMed+**  
Magnetic Resonance Imaging (MRI) Systems Market 2019 on Top Vendors like Hitachi, Canon Medical Systems and Siemens Healthineers By Published: Aug 2, 2019 4:02 a.m. ET

**Home | Hitachi Healthcare**  
Medical Imaging Systems & Components Hitachi offers supportive and friendly medical diagnostic imaging solutions and systems geared to hospitals and diagnostic imaging centers. Hitachi specializes in advanced medical imaging components, which enhance the MRI process in ministering the most productive laboratory test results.

**Hitachi RSNA**  
Hitachi Medical Systems America, Inc. (HMSA), is a major provider of magnetic resonance imaging systems in the United States. Hitachi has more than 2300 installed permanent magnet MR imaging systems worldwide. As a full-line supplier of medical imaging equipment in Japan, Hitachi Medical Corporation (HMC) founded HMSA to provide a direct link to the U.S. marketplace.

**Hitachi Oasis 1.2T MRI Scanner - Clinical Imaging Systems**  
Hitachi is looking toward more precise surgery and increased safety through the use of IoT, which organizes the data from diagnostic imaging systems, surgical navigation, and biological information, centering on the intraoperative MRI scanning system installed in an operating room.

**Recent Advances in MRI Technology | Imaging Technology News**  
Magnetic Resonance Imaging Hitachi provides the most patient friendly imaging systems in the industry. We earned our reputation for comprehensive diagnostic imaging systems that optimize patient experience and comfort while providing uncompromised imaging performance and patient workflow.

**MRI - Altair™ - MR-TIP: Database**  
Magnetic Resonance Imaging System Our MRI systems provide greater usability and are highly reliable and practical. Hitachi offers a combination of traditional open MRI technologies as well as superconductive MRI application technologies which are newly developed.

**Hitachi-Medical-Systems.eu - Hitachi Medical Systems**  
This document is the DICOM Conformance Statement for the Hitachi MR imaging system. It provides a high level description of the DICOM capabilities of the Application Entity used in the MR scanners. The document is formatted according to DICOM PS3.2 (2003).

**MR Imaging System - Hitachi Healthcare**  
AIRIS Light is compatible with Hitachi's customer support system, Sentinel \*. Sentinel \* is a system which observes the operational status of your MRI to support its stable use. \* Users are required to set up the network environment compatible with the service. The contents of the service may vary depending on the extent of contractual coverage.

**Magnetic Resonance Imaging (MRI) Systems Market 2019 on ...**  
Hitachi's certification process begins with a careful selection of pre-owned systems with known service history. Every component is inspected. Every subsystem is tested. Every system is certified as meeting original factory specifications for quality and performance. Finally, the system is packed and shipped using Hitachi approved methods.

**Magnetic Resonance Imaging (MRI) - Hitachi Medical Systems**  
Hitachi-Medical-Systems.eu - Hitachi Healthcare develops and supplies high-quality medical imaging equipment. Committed to providing proven diagnostic technology which meets the needs of physicians and patients, we invest continually in cutting-edge research.

**Advanced Healthcare Solutions - Hitachi**  
Hitachi's Echelon Oval 1.5T MR system provides outstanding imaging performance on a platform designed for the patient. The industry's widest patient table provides access and comfort to the broadest possible spectrum of patient types: from pediatric to bariatric to claustrophobic to geriatric - and everyone in-between.

**Healthcare & Life Sciences - Hitachi**  
of the brain on Hitachi MRI systems. We will examine Time of Flight Angiography, Diffusion Weighted Imaging, Diffusion Tensor Imaging, Blood Sensitive Imaging, Perfusion Imaging, MR Spectroscopy, and Functional MRI. We will review proper patient positioning in the Hitachi head coils, keeping in mind that RF coil cables
