~~Antique Treasures Restoration Studio~~

The back of the document should always be repaired first. The Filmoplast tape is pH neutral and doesn't yellow. It also can be removed and applied again during the taping process, which is a big help for those doing this for the first time. Don't use "scotch" tape--EVER. Remove old tape if it won't destroy the document finish.

~~Repair PDF Online~~

DO NOT attempt to treat or repair a valuable or very fragile item; in that case, do seek the services of a professional conservator. 1. I have several old letters and certificates that I want to preserve. What can I do? The key to preserving your paper documents is to keep them in an acid-free, humidity-controlled environment.

~~Preserving Old Documents~~
