The study's authors looked at CDC suicide reports from 2009 to 2015 and results of two surveys given to US high school students to measure attitudes, behaviors and interests. About half a ...

On Suicide A Study In

Le Suicide by French founding sociologist Émile Durkheim is a classic text in sociology that is widely taught to psychology students. Published in 1897, the book was the first to present a sociological study of suicide, and its conclusion that suicide can have origins in social causes rather than just being due to individual temperament was groundbreaking at the time.
