language skills Harmer (1991) clearly states, "If language structures make up the skeleton of language, then it is vocabulary that provides the vital organs and the flesh" (p.153).

~~ResearchGate | Find and share research~~

Most research papers normally require a thesis, even on the step of outline creation. If you are not sure, ask your teacher whether your paper requires it and what they expect to see in your research paper thesis statement. In short, a thesis is the main idea, a central point of your research paper.

~~Open ended Questions in Research — Reading Craze~~

Open research is research conducted in the spirit of free and open-source software. Much like open-source schemes that are built around a source code that is made public, the central theme of open research is to make clear accounts of the methodology freely available via the internet, along with any data or results extracted or derived from them. This permits a massively distributed collaboration, and one in which anyone may participate at any level of the project.
