Achilles Tenotomy - Physiopedia

Achilles Tenotomy (Percutaneous Heel Cord Tenotomy) The Achilles tenotomy is an integral part of Ponseti management of clubfoot. Tenotomy is necessary because the Achilles tendon, unlike the ligaments of the foot, is made up of thick, non-stretchable fibres. After the tenotomy the foot is placed in a final cast in an over-corrected position of maximal abduction and dorsiflexion.

A Closer Look At Tendon Lengthening In Patients With Ankle ...
