[morning breadth | ReviewCivilPE](#)

The PE Civil exam is a breadth and depth examination. This means that examinees work the breadth section in the morning and one of the five depth modules in the afternoon. The breadth section contains questions from all five areas of civil engineering. The depth section focuses more closely on a single area of practice.

[NCEES PE Civil exam information](#)

Civil PE Breadth Portion. There has been a few changes to PE Exam for the April 2015 Exam. It is not divided into transportation, structural, geotechnical, water resources, and construction engineering anymore. The new test has most of the same engineering topics. They are more clearly defined and just separated differently.
