Summary Chinese historical syntax is a relatively young subfield of Chinese linguistics. Grammaticalization as an independent discipline has become one of the most recognized subfields in Chinese linguistics, and Peyraube's article is still an essential resource for professionals and students who are interested in the subject.

Chinese became the medium of instruction at the deaf schools. Signed Chinese is an artificial language that employs Chinese grammar but adopts TSL signs and signs invented based on Chinese morphology.³ Although Signed Chinese is very different from TSL in morphology and syntax, it shares a large number of lexical items with TSL.
