High blood pressure (hypertension) is a major risk factor for cardiovascular disease, and treating it prevents serious cardiovascular consequences.

The Fake Hypertension War | MedPage Today

Vitamin C: There are scientists who speculate that high blood pressure is actually scurvy (extremely low vitamin C). While that is not true, it is certain that your blood vessels need vitamin C to be healthy. CoQ10: This antioxidant/enzyme is found throughout our bodies and is used for energy production.

Blood Pressure Guidelines Are a Big Pharma SCAM - Living ...

Based on the title, I was expecting a book that delved into how the pharmaceutical companies, doctors, and politicians are pushing the "high blood pressure hoax." I was really hoping she would give plenty of examples of how high blood pressure really isn't the "silent killer" as so many doctors claim.

The High Blood Pressure Hoax: Rogers, Sherry A. ...

Myth: Your numbers are too high.... Blood pressure naturally rises when we are stressed, in motion, tense or angry. The correct way to take your blood pressure is to sit without talking for 3 to 5 minutes, apply the correctly sized cuff to your arm, hold your arm across heart level and keep your body limp like a Raggedy Anne doll.

High Blood Pressure Myths and Lies

Untreated sustained high blood pressure leads to increased risk of heart disease and stroke. There are clear risk factors that are easily managed if the patient makes some simple lifestyle changes. In the case of hypertension, a simple 20 minute walk will reduce blood pressure by 5-10 points. I learned this from a doctor who would measure a ...

Is Your Hypertension Real or a Money Maker for Pharma?

I 'm not saying high blood pressure isn 't a problem. Other than smoking, high blood pressure is the leading PREVENTABLE cause of heart attacks and strokes. Good blood pressure should be below 120/80—like mine is. But the reason it goes up is NEVER due to a drug deficiency. Remember, high blood pressure is a symptom, not a disease.

Is There a New High Blood Pressure Hoax?

Sherry A. Rogers, MD, an environmental doctor who has been a fairly prolific writer, has a book called THE HIGH BLOOD PRESSURE HOAX. She quite seriously supports the more modern BP figure of 120 over 70. BUT she advocates trying to figure out why the BP is high and counsels treating with diet and other lifestyle changes.

THE HIGH BLOOD PRESSURE HOAX | Louisa Enright's Blog

High blood pressure, or hypertension, rarely has noticeable symptoms. But if untreated, it increases your risk of serious problems such as heart attacks and strokes. Around a third of adults in the UK have high blood pressure, although many will not realise it.
