In Tight Corners by E.V. Lucas we have the theme of struggle, risk, self-importance, appearance and good fortune. Taken from his Giving and Receiving collection the reader realises after reading the essay that Lucas may be exploring the theme of struggle. The narrator knows that he does not have the money to buy the Daubigny but he hopes that by having a little bit of fun others will out bid him and relieve him of the pressures of having to admit that he does not have the money to purchase ...

...

A Tight Corner is a 1932 British comedy film directed by Leslie S. Hiscott and starring Frank Pettingell, Gina Malo, Betty Astell and Charles Stratton. It was made at Twickenham Studios as a quota quickie for release by MGM.

A Tight Corner - Wikipedia

Wall corners can be built up with corner bead and compound, and window and door frames can slightly protrude or be recessed behind surrounding drywall. That's when you have to start fiddling with the angles to get a tight fit. In most cases, you'll be making adjustments as small as a quarter of a degree.

Tight Corners. In ‘Tight Corners’, E.V. Lucas narrates the story of how he was rescued from humiliation at an auction house, by a sudden stroke of luck. Let’s read on and get to know how he got himself in a tight corner and found his way out of that situation. The talk was running on the critical situations in which we had found ourselves — those of us whose lives were adventurous enough to comprise any.

Plus, check out these Tips for Tight Miters and Miter Cuts. 1. Micro-Adjust a Miter. Close a gap on the top of a miter by placing a skinny shim (1/16 in. or less) against the portion of the fence farthest from the blade. Slide the molding tight to the shim and against the fence near the blade. Hold it in this position while you make the cut.

Begin to fill the corner with paint. Use a two-and-a-half inch wide brush and liberally dip into the paint. Start by using your brush to apply paint from the innermost crevice. This will make it easier to paint the areas immediately surrounding the corner.

How to Paint Corners: 10 Steps (with Pictures) - wikiHow

Cut or fashion a 1/4-by-3/4-by-3-inch piece of wood into a long, sharp wedge. Fold the sandpaper over the sharp end and use it to sand inside tight corners. The wedge works similar to a surgical tool, allowing you to sand in short, focused strokes with some power behind them. Cut the wedge smaller if needed.
