How Measured Moves in Markets Can Show You Profit Target ...

As is the norm and I have explained in the past, when it comes to measured moves, you have to think in terms of trade entry to completion. The market is continuously evolving and for the purposes of any trader's objective, you simply need to determine what a reasonable movement would be. Reasonable moves, as far as we are concerned, are full, round circle transitions.

Trading a Measured Move

The measured move states that any given trading instrument will often impulse or correct in similar price & time pattern to how it performed in recent history. This can be applied to both time and price as the distance travels is often similar and the time it takes to reach that point is strikingly similar as well.
