~~TRAINING NEEDS ASSESSMENT REPORT IMPEL~~

ABOUT THE TRAINING
NEEDS ANALYSIS The
training need analysis
(TNA) was conducted in
March 2018 as a
foundational aspect of
the practice
improvement activity

of the CELC-T project.
The primary objective
of the TNA was to
determine needs for
training of aged care
staff; to overcome the
knowledge/ skills gaps;
and

needs or identifying learning needs are topics we are often asked about. To help individuals undertaking TNA or LNAs we have developed a series of templates to act as a starter for you. Often the content of the needs analysis template may be all you need, however, we do not know your particular organization or culture.

~~Training Needs Analysis Report~~ — CEDP

This report is a snapshot of PHL community training needs, rather than a comprehensive report of the survey data analysis. Key Findings Results of the TNA analysis revealed the following major findings in the areas of demographics, training topics and preferred learning methods of the PHL community.

provide the needed training to the employees, they must conduct a training needs analysis. By definition, a training needs analysis is a process of identifying the need and the necessity of training before doing the actual training, and it is often the first stage of the employee training process. The preliminary goal of the analysis of training is

As such, an annual or bi-annual online staff training needs survey is becoming an increasingly popular approach to address this requirement. When assessed against the alternatives of paper-based or face-to-face training needs analysis surveys, we find the online approach has a number of clear advantages. These
