Before we look at the short and long-range trajectories of these two cartridges, we wanted to take a broad outlook at the trajectory of only two rounds. We selected a round from each cartridge that are from the same manufacturer, have the same bullet design, are of similar bullet weights, and have similar ballistic coefficients (Graph 5).

Night of the Living Dead is a 1968 American independent horror film written, directed, photographed and edited by George A. Romero, co-written by John Russo, and starring Duane Jones and Judith O'Dea. The story follows seven people who are trapped in a rural farmhouse in western Pennsylvania, which is under assault by an enlargening group of cannibalistic, undead corpses.

J.P. Telotte provides a survey of science fiction film criticism, emphasizing humanist, psychological, ideological, feminist, and postmodern critiques. He also sketches a history of the genre, from its earliest literary manifestations to the present, while touching on and comparing it to pulp fiction, early television science fiction, and Japanese anime.

mpaar February 23, 2016 at 5:47 pm. Mike Paar After Class Summery 2/22/16. This week we begun our readings of the Wesleyan anthology with H.G. Wells short story, "The Star." The story detailed the global events surrounding the passing of a foreign star through our solar system and the effects that it would have on our planet itself.

I did a little experimenting on trajectory software, but didn't come up with anything concrete. The good news is that the old 50 yard zero works pretty well for 300 BLK as well. Here's why . . . 300 AAC Blackout is a fantastic hunting round. So long as your target isn't much over 100 yards, that is.
