M. John Harrison marshals an arsenal of arcane vocabulary to describe the fetid desuetude of the world of his mythical city of *Viriconium*. Viriconium is a series of novels and stories written by M. John Harrison between 1971 and 1984, set in and around the fictional city of the same name. In the first novel in the series, the city of *Viriconium* exists in a future Earth littered with the technological detritus of millennia. However, variations of the city appear throughout the series, in an attempt by Harrison to subvert the concept of thoroughly-mapped secondary worlds featured in certain works of fantasy, particularly those by J.R.R. Tolkien.
